Student Profile, 2019-20

Below is a set of the latest statistics, for the academic year 2019 - 2020. Data is supplied by the Strategic Planning Department.

This profile includes all Higher Education (HE) provision. Two measures are provided:

1. Full-time equivalent (FTE)
2. Enrolments

The Enrolments statistics are calculated by the number of students registered onto a course. If a student is registered simultaneously on an undergraduate course and on another course they would be counted twice in the Enrolments column.

The FTE for a part-time course is calculated by comparison with an equivalent full-time course.

Each statistic covers the following categories:

- [Total registrations](#)
- [Age](#)
- [Ethnic origin \(full-time students\)](#)
- [Ethnic origin \(part-time students\)](#)
- [Level of study \(full-time students\)](#)
- [Level of study \(part-time students\)](#)
- [Gender \(full-time students\)](#)
- [Gender \(part-time students\)](#)
